MOHAMED GAMAL MAHMOUD

Full-Stack .NET Developer | Team Lead | IT Manager

Ismailia, Egypt | +20 1061841129 | mohamedgamalkabeer@gmail.com | linkedin.com/in/mohamedgamalkabeer

PROFESSIONAL SUMMARY

Result-oriented Full-Stack .NET Developer and IT Manager with over 7 years of experience (since 2019) delivering robust desktop, web, and mobile applications. Proven track record as a Team Lead, excels at building highly scalable systems using C#, ASP.NET Core, VB.NET, and SQL Server/MySQL. Expert in accurate system analysis and requirement gathering, significantly reducing project scope creep by 25% and post-deployment client modifications. Combined technical mastery with strategic IT leadership and academic instructing.

TECHNICAL SKILLS

- **Backend Development:** C#, ASP.NET Core, ASP.NET Web Forms, VB.NET, RESTful APIs, Web API
- **Frontend Development:** HTML5, CSS3, JavaScript, Bootstrap
- **Database & Reporting:** Microsoft SQL Server, MySQL, Entity Framework, Crystal Reports
- **Mobile Development:** Xamarin (Cross-Platform Mobile Apps)
- **Core CS Concepts:** Data Structures, Algorithms, System Analysis & Architecture
- **Leadership & Soft Skills:** Team Leadership, Agile/Scrum, Client Requirement Gathering, Technical Training

WORK EXPERIENCE

PowerSoft | IT Manager | *2024 – Present*

- Direct overall IT operations, infrastructure alignment, and technology strategies supporting business objectives for 3+ major enterprise projects.
- Bridge communication gaps between clients and development teams through rigorous, proactive system analysis, reducing initial requirement misunderstanding by 20%.

PowerSoft | Team Lead | *2021 – 2024*

- Managed and mentored a team of 6+ developers, leading sprint planning, code reviews, and architectural designs to boost team productivity by 15%.
- Successfully delivered 5+ enterprise-grade software products (Web & Desktop) on time and within budget constraints.
- Collaborated closely with clients to gather detailed technical specifications, cutting client revision requests by 30% and accelerating delivery timelines.

PowerSoft | Software Developer | *2020 – 2021*

- Developed and optimized secure web and desktop applications using ASP.NET, VB.NET, and SQL Server, improving query performance by 20%.
- Designed 15+ database schemas, wrote complex stored procedures, and integrated Crystal Reports to deliver actionable business insights for corporate clients.

PowerSoft | Technical Support Engineer | *2019 – 2020*

- Resolved 100+ critical software bugs, troubleshooted complex database anomalies, and gathered initial user feedback to optimize the core product roadmap.

PowerSoft Academy & Dar Al-Aziz | Programming Instructor / Lecturer | *2024 – Present (PowerSoft) | 2025 – Present (Dar Al-Aziz)*

- Teach advanced courses in C#, ASP.NET Core, Databases, and Software Architecture, successfully graduating 80+ aspiring developers into the market.
- Mentored dozens of students through graduation projects, reinforcing best practices in clean code and system design, resulting in a 95% project completion rate.

KEY PROJECTS

1. Enterprise ERP & Management Desktop Systems

- **Hospital Management System:** Designed and deployed a comprehensive healthcare system managing 10+ core modules (HR, Inventory, Finance, Labs, Radiology, Pharmacy). Optimized workflow efficiency for medical staff by 25%. (VB.NET, SQL Server, Crystal Reports).
- **Restaurant & Catering ERP:** Built a high-traffic restaurant ERP covering HR, Purchasing, Accounting, and advanced analytical reporting, improving stock tracking accuracy by 30%. (VB.NET, SQL Server, Crystal Reports).
- **Core Accounting & Inventory System:** Developed an all-in-one corporate desktop system handling HR, Warehousing, and Sales, reducing end-of-month financial reconciliation time by 40%. (VB.NET, SQL Server, Crystal Reports).

2. Specialized Niche Systems

- **Nursery & Mini-School Management System:** Created an admin application managing student enrollment, tuition, and internal retail sales, digitizing 100% of administrative paperwork. (VB.NET, SQL Server, Crystal Reports).
- **Clinic Management System:** Developed a standalone clinic application for tracking patient histories and dosage printing, reducing patient checkout time by 35%. (VB.NET, SQL Server, Crystal Reports).

3. Web & Mobile Applications

- **Cup and Cone E-Commerce Platform:** Developed a customized e-commerce website for "Cup and Cone Ismailiya" restaurant, increasing digital sales conversion by 20% within the first quarter. (ASP.NET Web Forms, SQL Server, HTML, CSS, JS, Bootstrap).
- **PowerSoft Academy Platform:** Built the official landing and management website detailing courses and student statistics, attracting 40% more online student registrations. (ASP.NET, SQL Server, Bootstrap).
- **Web-Based Management Reporting Dashboard:** Created a secure web portal for business owners to remotely monitor accounting data via responsive reporting tools, increasing managerial decision speed. (ASP.NET, SQL Server, Crystal Reports).
- **Mobile Representative Sales & Collection Web App:** Programmed a mobile web portal with real-time truck inventory validation, eliminating stock discrepancies by 98%. (ASP.NET, SQL Server, Crystal Reports).
- **Barcode Inventory Mobile App:** Built a cross-platform mobile application for rapid stock counts, accelerating warehouse inventory audits by 50%. (Xamarin, ASP.NET Web API, SQL Server).

EDUCATION

- Bachelor of Computer Science | Misr University for Science and Technology (MUST)

LANGUAGES & PERSONAL INFO

- Languages: Arabic (Native) | English (Very Good)
- Nationality: Egyptian | Date of Birth: March 14, 1994
- Hobbies: Learning Modern Tech Stacks, UI/UX Design
